

§ 987.83

upon the members of the said Committee and upon the said joint trustees.

[27 FR 6818, July 19, 1962, as amended at 36 FR 15039, Aug. 12, 1971]

§ 987.83 Effect of termination or amendment.

Unless otherwise expressly provided by the Secretary, the termination hereof or of any regulation issued pursuant to this part, or the issuance of any amendment to either thereof, shall not—

(a) Affect or waive any right, duty, obligation, or liability which shall have arisen or which may thereafter arise in connection with any provision of this part or any regulation issued hereunder, or

(b) Release or extinguish any violation of this part or of any regulation issued hereunder, or

(c) Affect or impair any rights or remedies of the Secretary or of any other person, with respect to any such violation.

§ 987.84 Amendments.

Amendments hereto may be proposed, from time to time by any person or by the Committee.

Subpart—Administrative Rules

SOURCE: 37 FR 23325, Nov. 2, 1972, unless otherwise noted.

DEFINITIONS

§ 987.101 Lot.

Lot means the aggregate quantity of dates of the same variety, style, type and grade in like containers with like identification either (a) packed as a continuous production segment, or (b) offered for inspection as a shipping, storage, or other unit.

§ 987.102 Lot number.

Lot number is synonymous with code and means a combination of letters or numbers, or both, acceptable to the Committee, showing at least the date of packing, the variety, and the outlet category of the dates. The combination of letters or numbers, or both, imprinted on the containers shall differ

7 CFR Ch. IX (1-1-04 Edition)

from those of any other lot coded within a 3-year period.

§ 987.104 Major marketing promotion.

A major marketing promotion program is one requiring the expenditure of more than \$500 of Committee funds.

[43 FR 28435, June 30, 1978]

§ 987.105 Whole equivalent of pitted dates.

For the purposes of this part, the whole date equivalent weight of pitted dates shall be determined by dividing the weight of the pitted dates by 0.83.

[53 FR 39226, Oct. 6, 1988]

IDENTIFICATION AND OUTLET SPECIFICATIONS

§ 987.112 Identification of dates.

(a) *General.* Prior to applying the markings required by this section, each handler shall remove or delete from each container all former identifying marks which conflict with those applicable to the dates currently in the container. Dates of each outlet category shall be held, stored, or shipped in a manner to preserve their identity. Except as provided in paragraph (d) of this section, the markings on the containers shall be not less than five-sixteenths ($\frac{5}{16}$) inch in height on containers exceeding 5 pounds net weight and not less than one-eighth ($\frac{1}{8}$) inch in height on smaller containers. All markings shall be legible.

(b) *DAC dates.* Each handler shall mark every shipping or storage container (excluding subcontainers) of DAC dates with his name or that of the distributor for whom the handler is packing, and the lot number. Under the supervision of the inspection service every container shall be marked with the date of inspection, the name or insignia of the inspection service, and the letters "DAC".

(c) *FP dates.* Each handler shall mark every shipping or storage container (excluding subcontainers) of FP dates with his name or that of the distributor for whom the handler is packing, and the lot number. Under the supervision of the inspection service every container shall be marked with

the date of inspection, the name or insignia of the inspection service, and the letters "FP".

(d) *Export dates.* Each handler shall mark every shipping or storage container (excluding subcontainers) of Export dates with his name or that of the exporting firm, and the lot number. If the dates, including fieldrun dates with cull dates removed, are certified as meeting the grade and size requirements for export to approved countries other than Mexico, the containers shall be marked "Export". Dry dates for processing packed for shipment to approved countries shall be marked "Export Dry". Dates packed for export to Mexico shall be marked "Export Mexico". However, "Export Mexico" shall be in letters not less than three-fourths (¾) inch in height on containers exceeding 5 pounds net weight, and not less than one-eighth (⅛) inch in height on smaller containers. DAC dates and FP dates, marked pursuant to paragraphs (b) and (c), respectively, of this section, may be exported without change of marking.

(e) *Product and utility dates.* Each handler shall mark every shipping or storage container (excluding subcontainers) of Product dates, or Utility dates when approved for use in products, with the lot number and, if for shipment outside the area of production, with the word *Product* or *Utility*, as applicable. Whenever a handler, or an approved date product manufacturer, utilizes a procedure that maintains the identity of the lot and assures that the dates will be used in products or exported, the Committee may waive the requirements of this paragraph for that lot.

(f) *Unidentified dates.* If a handler loses the identity of any lot of dates previously inspected and certified as marketable dates, the certification as to such lot shall be void.

[43 FR 28436, June 30, 1978]

§987.112a Grade, size, and container requirements for each outlet category.

(a) In lieu of the minimum standards prescribed in §987.39, the following standards are prescribed as the minimum grades and sizes for marketable dates to be handled in the applicable

outlets. These standards shall continue in effect irrespective of whether the season average price to producers for dates is or is not in excess of the parity level specified in section 2(1) of the act.

(b) *DAC dates.* (1) All varieties of DAC dates may be handled in the United States, Canada, or any other outlet established for dates of lesser grades or sizes.

(2) DAC dates of any variety shall at least meet the requirements of U.S. Grade B, except that up to 25 percent, by weight, of the dates may possess semi-dry or dry calyx ends, but not more than 5 percent, by weight, of the dates may possess dry calyx ends. Also, with respect to whole dates of the Deglet Noor variety, the individual dates in the sample from the lot shall weigh at least 6.5 grams, but up to 10 percent, by weight, may weigh less than 6.5 grams, except beginning February 21, 1997, and ending October 31, 1997, the 10 percent tolerance shall be increased to 15 percent. These size requirements are in addition to, and do not supersede, the requirements as to uniformity of size prescribed in the grade standards.

(3) DAC dates of any variety, when packed in plastic containers, other than bags and master shipping containers, shall contain a net weight (i) for whole dates, of either eight ounces, twelve ounces, 1 pound 8 ounces, or two pounds or more, and (ii) for pitted dates, of either seven ounces, ten ounces, one pound, one pound eight ounces, or two pounds or more. DAC dates packed in other than plastic containers may be handled without regard to the net weight content. For the purpose of this subparagraph, *plastic container* means any containers of any shape made from plastic and in which dates are packed without the use of cardboard boats, trays, or other like stiffening material: *Provided*, That DAC dates shipped for sale in Canada in plastic containers are exempt from the net weight requirements of this subparagraph.

(4) The California Date Administrative Committee may designate with the approval of the Secretary such other types and sizes of containers for testing in connection with a research project conducted by or in cooperation
